E6/EV1 Anodized

Frame Colours

Standard Colours

GOSS Outdoor offers a wide range of standard frame colours at no extra charge for all awning models (except Economy model)

Choose from the colour chart overleaf:

- RAL colours as a powder coating with a smooth surface
- Textured finishes with a textured surface, including some with metallic lustre effects.

Additional RAL *satin gloss finish, smooth*

Apart from our wide range of standard colours, you have the opportunity to choose an additional colour for an extra charge.

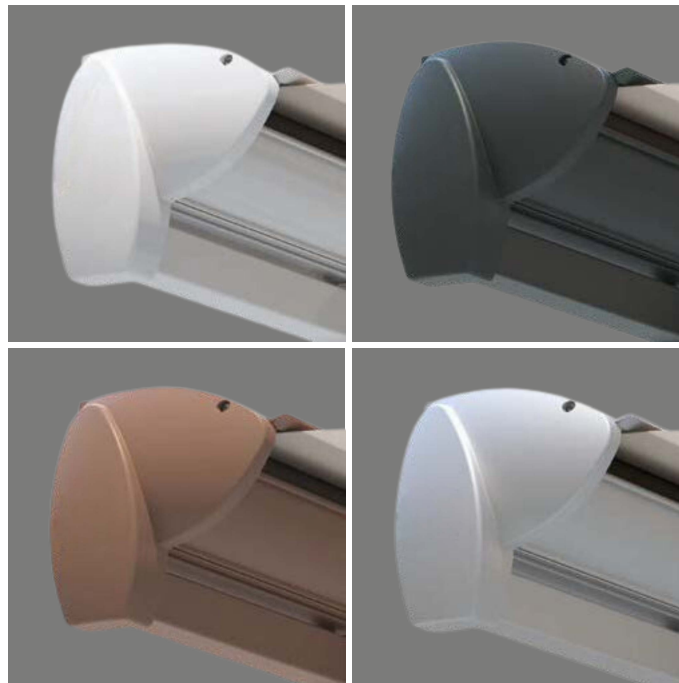

The list provides a summary. The colour numbers refer to the current RAL colour fans.

5001	6000	6025	7021	8002	
5002	6001	6026	7022	8003	

Other special colours on request:

- all non-listed RAL colours
- fine and rough texture
- pearlescent and glimmer-effect finishes
- metallic finishes
- NCS colours

For enquiries we require all the details of the requested powder: manufacturer, item number, designation and shade.

NB

Shades may vary depending on the finish, manufacturer and production.

In the case of coloured frames / textured finishes, plastic parts, caps, crank eyes and crank may differ in colour

Option

For awnings installed in coastal regions that are exposed to moist, salty air, we offer pre - anodizing of the frame for a surcharge. This treatment increases the durability of the powder coating. We also recommend the use of plastic caps here.

Important information for specialist contractors:

- Contractors must consult GOSS Outdoor regarding any costs arising due to a complaint before settling these. GOSS Outdoor otherwise reserves the right not to reimburse costs arising.
- Goos returns must be arranged with us. Returns may be refused.
- our attention is drawn to the fact that a flat rate processing charge of 30% of the value the goods is levied when goods are returned.
