NORTHWOOD PROJECT, GREATER LONDON | Zeus Plus Luxe Cassette Awning

This elegant garden and living area is defined by the practical use of these Zeus Plus Luxe Awnings, its beautiful fabric choice compliments the rest of the house beautifully and creates a light airy mood.

This project was completed in a private garden in Greater London, these awnings come standard as a motorised operation with remote control and there is an integrated led lighting feature that creates a welcoming space after dark. These particular awnings had heaters and sensors installed too which you can also do.

As we installed 2 Zeus plus luxe awning, we used the same fabric colour, same measures and same features. The Fabric chosen by Sattler Solution Dyed Acrylic Fabric from Elements Collection. At Sattler, every single fiber is carefully covered with a protective coating. This premium awning fabrics are made from 100% solution-dyed branded acrylic. This guarantees top-level functionality, and outstanding UV protection.
